VideoProtein Announces GSA Listing

Delray Beach, FL, January 8, 2008 - VideoProtein is proud to announce our official listing on the Government Services Administration schedule through a partnership with Exceptional Software Strategies, Inc. This listing means that VideoProtein is now eligible for government contracts from U.S. federal, state and local agencies through Exceptional Software Strategies, Inc.'s GSA schedule.

Exceptional Software Strategies is an 8(a) & MBE Certified Company.

“We are very excited about this alliance with VideoProtein,” said John P. Griffin, Vice President of Business Development and Corporate Security Services. “VideoProtein’s IP video security solution is the perfect fit for many government enterprise locations, so we felt that the decision to facilitate their GSA listing through a partnership with Exceptional Software Strategies, Inc., was a mutually beneficial one.”

About VideoProtein

VideoProtein is the market leader in browser based IP Video Camera Management Software. VideoProtein was built with Java to run on Linux (RedHat), Sun (Solaris), Mac or Windows, and will support any IP video device.

VideoProtein users can access IP video cameras from multiple remote locations using any standard Internet browser with no client software required. Video can be monitored live or recorded to the network for digital archives or instant play back. The only on-site requirement is an IP video camera and a broadband Internet connection. For more information, visit www.videoprotein.com.

About Exceptional Software

Founded in 1996, *Exceptional Software* continues to grow as a leading provider of information technology solutions and services to the U.S. Government, educational institutions, and private industry. They are certified by the U.S. Government Small Business Administration (SBA) as an 8(a) Corporation, by the Maryland Department of Transportation (MDOT) as a Minority Business Enterprise (MBE), and by the National Minority Supplier Development Council (NMSDC) as an MBE.
